## TALKING, SINGING, READING, WRITING, PLAYING

### AFTER SCHOOL CRAFT

Pick up the children after school and bring them to the library for a craft! Crafting at the library is a great way to spend time with your children, help them create something for you. Crafting is an important part of child development. Showing praise and recognition for what a great job they have done, by hanging their craft up for all to see, builds their confidence!

### Early Literacy Play Date (AGES 0—5)

A treasure trove of toys, oh the possibilities of fun, engaging entertainment! Take the time to stop by, experience how the idea of simple 'play' can help to develop those important milestones of gross/fine motor skills, language, cognitive, and social skills.

**Story-time** - Encourage emerging language skills with books, rhymes, music and fun. For preschool, toddlers and their parents/caregivers.

**Baby Playtime** - Our session for toddlers features stories, rhymes, and other activities just right for you and your infant to 2 year old child.

### FAMILY NIGHT

Take a break and spend an evening at our family night. Every month we offer something new to do as a family. After all, a family who plays together—stays together.

### FAMILY MOVIE & POPCORN

Stop by and enjoy a movie and popcorn offered once a month. Bring a pillow, as well, to get comfy.

### AFTER SCHOOL GAMES

The library offers gaming consoles which children can come to play. We also have a closet full of board games that our little patrons can ask to play. During this time children learn the essence of sharing and taking turns playing together.

### INFORMATIONAL PROGRAMS

It is very important to know what your library has to offer, not only for yourself but for your children as well. As a parent or caregiver you are the first line of defense. Libraries offer an enormous amount of information.

### Early Literacy Kits

Please come and check out our large selection of learning kits.
