

The CocoNuts Robotics Team with support from  
the Coconino County Education Services Agency  
Present:

# FIRST Lego League Coaches Training

2  
sessions

**Session I: July 29-30, 2014**  
**Session II: July 31-August 1, 2014**

**Time: 8:00 am to 4:30 pm (Lunch 12-12:30)**

The workshop will take place in the science department (2nd floor) of Coconino High School. Cost for the workshop is \$20 per participant. Participants are eligible for up to 16 seat hours for recertification.

**Register online by noon  
July 27 at: [https://  
www.surveymonkey.com/s/  
NAZFLL2014](https://www.surveymonkey.com/s/NAZFLL2014)**

*\$20 registration fee is for  
printing costs and light  
refreshments*

## **Participant Benefits:**

- \*Print resources and practice needed to successfully run an FLL team.
- \*Up to 16 hours for recertification
- \*Hands-on experience with robotics, core values, and project.

FIRST Lego League is an exciting and innovative robotics program for students in grades 4-8. Each year, a new challenge is given to teams that relate to a current topic in science or engineering. The FLL Challenge has 3 parts: the Robot Game, the Project, and Core Values.

This training is designed to give rookie coaches the tools they need to succeed in FIRST Lego League.

## **Participants have the opportunity to:**

- \*Build and program a robot
- \*Program sensors
- \*Try missions from last year's game
- \*Complete a mini project on a theme
- \*Experience a sample Core Values activity
- \*Learn how FLL programming can be aligned to standards, including Common Core English and Math
