ARIZONA CAMPAIGN FOR CHANGE

April 6, 2015

The legislative session is over, but we can't let the grassroots protests about the bad budget decisions disappear. **Write a short message to Governor Ducey today and join other Arizonans like you who want a better state budget for a brighter Arizona future.** Together, we can keep the issues bubbling in the news and on social media - and building pressure for future change.

Governor Ducey and the state lawmakers who voted for the new state budget said they had to make painful cuts to child safety, education, and family security because putting the budget into structural balance is a top priority. But those same lawmakers immediately passed new tax cuts that will clearly and deliberately move the budget out of balance - without any plan to strengthen education for our future.

Now is our time to speak up loud and clear to tell our leaders to stop the tax giveaways and put more money into education. Join parents and grandparents, foster parents and teachers, seniors and millennials, business and community leaders, congregational committees and civic volunteers around Arizona to make our voices heard.

We'll join with other community groups to deliver these personal messages to the Governor with the media watching. **Don't wait. Send us your postcard by May 8th!**

Your message to the Governor can include:

- Balanced budgets depend on both sides of the ledger
- Invest in kids and education now
- Stop the tax giveaways
- Arizona families need a better budget
- Stop skimping on child safety
- Children are not a special interest
- Education fuels Arizona's economy
- Arizona will be safer with smaller prisons
