

# Science Learning & Discovery

Science is an active and open-ended search for new knowledge. Acorn Preschool invites you to attend their 11<sup>th</sup> Annual Science Festival. See attached flyer to attend with children ages 3-6; children must be accompanied by an adult to interact with them and read directions to them at each activity. If interested in bringing a group of children to this event, please contact Heather at Acorn Preschool ahead of time to give her a heads up.

***For providers attending without children, please check in at the ASCC table when you arrive.***

Observe activities to try at your program and understand how the activities relate to the Arizona Early Learning Standards Science Module. Learn how children communicate their scientific inquiry, investigation, analysis and conclusion from their own explorations in the classroom. You will receive documentation of hours you attend.

**When:** Friday, May 6, 2016 10:00 am-12:00 pm

**Where:** Acorn Preschool 290 W. Oak Ave Flagstaff, AZ 86001

**Register by email [ectc@asccaz.org](mailto:ectc@asccaz.org)**

**or call (928) 714-1716**
