Founder: Dr. Alice Christie

TYNKERTOPIA is a non-profit 501 (c) (3) community center focusing on creativity and inquiry!

Tynkertopia's mission is to serve as a STEM/STEAM Community Center to empower all residents of Flagstaff and northern Arizona to:

- cultivate skills, strategies, and confidence as independent, lifelong learners
- expand creativity, inquiry skills, and STEM/STEAM skills and knowledge by:
 - inviting curiosity
 - inspiring wonder
 - encouraging playfulness, and
 - celebrating unique solutions.

As a safe, welcoming, and inclusive space for students, teachers, parents, artists, crafters, inventors, makers, and tynkerers of any age, we welcome community collaborations in which partners work together to share expertise, resources, and responsibility for achieving mutual goals.

Designed for kids, parents, teachers, and community members to build STEM/STEAM skills and encourage independent thinking, questioning, inquiring, designing, building, exploring and *tynkering!*
